Wyman, the President, and Brown the Cashier of the Phenix Bank, Charlestown, and Wm. II. Skinner, were examned on Friday last on the charge of embezzling \$300,000 from that Bank. Mr. Skinner is the only surviving partner of the firm of Reed, Stanley & Co. It appeared on the examination that on Saturday evening, October 1, Mr. Wy-man, finding it could be concealed no longer, confessed that the Bank was ruined by loans he had made the above house. The loans had been made on checks on other banks, drafts on other cities, &c. which were worthless, never have ing been presented for payment, and that in fact by an ar rangement with Win. H. Skinner the whole capital of the Bank had been converted into paper nearly worthless .-The first deviation was made by Wyman in the summer o 1839, when riged by Stanley and John Skinner he repeatedly refused, but eventually when one day John Skinner took him acide, told him he should be rained if a loan could not be had and cried like a child, his seruples were overone and he lent them \$15,000 on their note. After this they had other loans which he did not dare refuse for fear o losing what he had already lo aned them. Thus it went on antil the debt increased to \$355,000. Wyman's own liabiliues to the Bank are \$57,000 which the directors knew noth ing about. He had the entire confidence of the director and the full control of the Bank. Had been Cashier and President many years with a large salary, \$5000 per annum. After the explosion, Skinner told one of the directors that he supposed his firm owed the Bank about \$30,000. The asets of the firm he considers worth \$90,000. It was proved that Wyman had frequently obtained money of Odiorne, formerly teller of the Eagle Bank, and Blauchard, formerly teller of the City Bank, upon deposit of Phenix Bank note and his check, for the purpose of deceiving the Bank Commissioners. The bail of Wyman was reduced to \$3000 and of Brown and Skinner to \$20,000. Next Thursday there will be another examination. The great mystery of this case appears to be what has become of this immense sum

of money. At New Orleans Exchange was very abundant with little ty in disposing of Exchange in consequence of which the rates on all quarters have still further declined. Sterling I percent discount to 1 per cent premium. Francs 5.70 a 5.75. New-York, 60 day bills, 61 a 7 per cent discount - Sight Checks 4 a 41 per cent dist. While their taste, which is agreeable, gives their advantage over every other medicine now in use, the great variety of their ingredients renders them efficacious to an extent elsewhere unknown. My Dear Sir—Your communication of yesterday, asking my opinion of Dr. Starkweather's Hepatic Elixir, has been received this morning. In reply, I will inform you that my confidence in patent medicines generally is not very flutering. I have bad too much reason to believe that unprincipled men will often palm upon their fellow-chirchs their useless, if not dangerous nosbums for the sake of gain, the use of which takes up that important and critical period of time without producing any good effect, when otherwise perhapt proper remedios would have been used, and much suffering and distress prevented. For that reason I have not saffering and distress prevented. For that reason I have not need them, feeling myself and family to be much safer un-der the direction of my family physicians; but having been afficied for the last sixyears with difficulties in the side and
